Subject: DEA School

Hi,
The Coverdell ISA is finally in place so we can send some chemists to DEA School. I have budgeted for 4 to attend. Given the need for frequent testimony, it makes sense to send the more junior staff who have not already attended, to help bolster their credentials.

Please take a look at the available training sessions and the three of us can discuss late next week (Thursday?). Let's plan to send 1 analyst from the Amherst lab and 3 from Boston. If we don't have 3 from Boston who can travel on those dates, we can consider sending two from Amherst (but not at the same time).

Julie

Sorry – I was hoping to attach the link to the course on the DEA website but I was unable to find it.
